

Annual Index

Editorial content for Dairy Herd Management, January — December 1986.

Feeding & Nutrition

	Month	Page
Minor changes help them survive	Jan.	24
Add fiber to high-grain silage	Feb.	4
They know how to feed their forages	Feb.	16
Improve profitability by feeding right	Feb.	26
Can you feed for milk protein?	Mar.	32
Byproducts may need buffering	Apr.	4
What causes fat, protein to drop?	May	32
Close-up animals don't need alfalfa	July	4
Why cows are culled	July	4
Their low-cost rations include commodities	July	8
Commodity feeding offers possibilities and pitfalls	July	12
Feeding to reduce heat stress	July	17
It's more than how much you feed heifers	July	28
Moldy feeds make cows eat, produce less	July	32
Stretch forages with cheaper grains	Aug.	4
Ground ear corn is their best feed value	Aug.	8
Top herd hosts open house	Aug.	32
Response to bypass protein should differ	Aug.	37
Are you feeding enough calcium?	Sept.	5
Minimum vs. maximum levels of vitamin D	Sept.	48
Canola meal looks good for heifers	Nov.	4
Apply the '4R's' to feed additives	Nov.	24
Fat gives cows an energy boost	Nov.	28
Earlier weaning can pay!	Nov.	32
Divided trough halves calf feeding costs	Nov.	34
Liquid feed helped; not all cows ate it	Nov.	8
Zinc methionine lowers SCC	Dec.	4
Eastman Chemical opens state-of-the-art research facility	Dec.	16
Monensin for replacement heifers	Dec.	32

Health

Dry treating a second time	Jan.	4
How to improve foot care	Jan.	28
Why aren't my cows settling?	Jan.	66
How to treat sole abscesses	Feb.	20
Here's how to manage colostrum	Feb.	38
Ways to improve your conception rate	Feb.	42
Dipping in cold weather	Mar.	4
How to dehorn young calves	Mar.	36
Cats may cause calf pneumonia	Mar.	43
How to position delivery chains	Mar.	43
Treat cows at first sign of lameness	Mar.	50
How to remove dewclaws	Apr.	28
Manage to prevent calf losses	Apr.	42
To develop mastitis products	May	4
Pseudomonas aeruginosa: A rare but real mastitis problem	May	8
How to use footbaths to prevent lameness	May	16

Fetal loss has many suggested causes	May	33
New weapons to fight disease	May	34
Your veterinarian is a health care bargain	May	42
How to minimize calf scours	June	30
Does medicated milk replacer cause yeast?	June	32
Iron-eating bacteria found in water	June	32
Why some animals get sick	June	42
Avoid fat cows to reduce fatty livers	July	29
Understanding DHIA SCC linear scores	July	42
New facts on bovine somatotropin research	Aug.	14
Summer cooling, cleaning and feeding	Aug.	28
Chlorinated water won't harm cows	Aug.	37
Lepto may cause bloody calf urine	Aug.	37
You can prevent calf pneumonia	Aug.	42
Wisconsin cows low in selenium	Sept.	5
Bovine somatotropin controversy and impact	Sept.	22
How to identify dairy animals	Sept.	44
Calcium under skin may help milk fever	Sept.	48
Spinal injuries can be prevented	Sept.	52
Survey says you'll use somatotropin, have concerns	Oct.	12
Bothered by how-to article	Oct.	18
A lesson on listeriosis	Oct.	40
Concentrate on your most important cows	Oct.	50
Keeping cows content	Nov.	4
Too much water can cause bloody calf urine	Nov.	19
Heifer overate grain that settled out of TMR	Nov.	42
Vaccination strategies	Dec.	42

Reproduction

Should you select young or proven sires for profit?	Jan.	56
Detects estrus automatically	Feb.	4
A different approach to almost 25,000 lb.	Feb.	18
Review your reproductive management	Feb.	20
Breeding tomorrow's cattle	Feb.	27
AM-PM breeding still best policy	Mar.	4
Don't heat detect at feeding time	Mar.	4
Top Sires Shares A.I. problems	Mar.	16
You can deal with problem breeders	Mar.	40
PVS sire summary: bull power guide	Apr.	12
PVS correction	May	4
Test tube calf born at ABS	May	4
Prostaglandins don't guarantee heats	May	32
Heat detection unit probes for profit	June	8
Herd size shapes their reproductive programs	June	15
Not all milk progesterone tests are the same	July	18

Research from Florida	Aug.	12
How to handle bulls	Aug.	26
Breed efficiently in hot weather	Aug.	37
Pregnant cows may show standing heat	Aug.	38
A.I. companies have heat report cards	Aug.	43
Electronic heat detection	Sept.	5
Top Sires	Sept.	26
Heat detection probe is an Ovascan copy	Oct.	18
Manage risk with PVS	Oct.	19
How to use a heat detection aid	Oct.	36
Good feet/good breeding	Nov.	4
How to recognize heat signs in heifers	Nov.	30
Keep inbreeding in perspective	Dec.	4
Cow mating programs have changed	Dec.	8
How to select a mating service	Dec.	13
Genetics boost him to the top	Dec.	18
Care at calving	Dec.	22
Use days open to measure progress	Dec.	22
What could cause prolapsed uteri?	Dec.	35
Injecting IM best bet for prostaglandins	Dec.	35
Affordable embryos are coming to our area	Dec.	36

Money

Raise replacements economically	Jan.	20
Writing a partnership agreement	Jan.	55
Hardy's Holsteins are best sellers	Mar.	8
Reduce your federal taxes	Apr.	26
The time was right to buy the farm	May	12
Use seasonal price patterns in budgeting	June	26
We had to see dollar results	June	28
Control cash by bank reconciliation	June	33
Use Net Present Value before you buy	Aug.	23
There's an error in NPV equation	Oct.	18
They pay with cash	Nov.	20
What the new tax law means to dairymen	Nov.	36

Milking

Milking hygiene often needs improving	Jan.	4
Don't neglect milking system maintenance	Jan.	14
Using SCC effectively	Feb.	4
Applauds how-to article but sees two problems	Feb.	35
Residue tests are good insurance	May	4
What works to control environmental mastitis?	May	20
How to use and care for inflations	June	16
Don't be caught over the new SCC limit	June	23
Help for cow milk-out troubles	June	32
Preserving your milking system during the buyout	July	30
Freshen heifers at 1,200 lb	Aug.	18

Y-TEX EAR TAGS

ALL AMERICAN® 2-piece ear tag system

The most durable tag you can buy. Squeeze application snaps button into tag like a pop-rivet for unbeatable retention. Applicator features a wide no-pinch throat and no-slip handles. Each Y-Text button pierces only one ear, lessening chance of spreading infection. Choose from 5 sizes and 7 colors. All American tags are available blank, numbered one side, numbered both sides, or custom imprinted with your brand or logo.

E-Z-AP 1-piece ear tag system

Combines quality, economy, high visibility and great retention. Tagging is a simple push-pull with the E-Z-AP applicator. 3 sizes and 7 colors. Available blank, numbered one side, numbered both sides, or custom imprinted with your brand or logo.
